SOCIAL FINANCE

Why National Scale Matters

THE PROBLEM

2/3 OF U.S. JOBS
require postsecondary credentials

ONLY 1/3 OF STUDENTS
from low-income families have postsecondary credentials

THERE'S A 35% DECLINE
in federal funding for workforce development

7 MILLION JOBS
are unfilled due to the mismatch of skills that has emerged

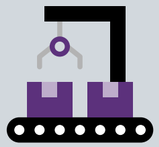
5 MILLION YOUNG ADULTS
are disconnected from stable career opportunities needed to compete in today's economy.

THE OPPORTUNITY

~5,000 OF LOW-INCOME YOUNG ADULTS will have access to **8-12 CAREER IMPACT BONDS THROUGH 90+ PROVIDERS** focused on job training programs across the U.S. in high-quality, industry recognized industries, such as:

HEALTHCARE

IT



MANUFACTURING

GREEN ENERGY

LEISURE AND HOSPITALITY

SKILLED TRADES

THE SOLUTION

Social Finance's UP Fund will serve young people who would otherwise not have the job training and access to in-demand careers financed through their innovative Career Impact Bonds, a financing tool providing students with affordable, high-quality workforce training for in-demand careers.

AT SCALE

At scale, Social Finance will mobilize capital through innovative financing tools to drive social progress and provide young adults with low income to high-quality job-training programs, increasing their earning potential and advancing economic mobility.
